

Awaken the Shaman Healer within - For Yourself and the World

October 6-12 2025 · Mallorca · 6 spots available

This 6-day program is designed for those who wish to heal their own story and learn the techniques of shamanic energy medicine – whether to help others professionally or to deepen their own personal journey.

The first 3 days take you into the **South of the Inka Medicine Wheel** – the path of the Healer. **What story are you living?**

We begin with the archetype of the serpent, the healer. Like the serpent sheds its skin, you will be invited to release the stories and patterns that no longer serve you. In this process, you rejuvenate your life force and begin to live a more energizing and truthful version of yourself. This is the healing alchemy of the South – reclaiming your place in the garden of abundance and vitality.

You will receive four Andean initiations to strengthen your energy with the elements of nature, open your intuitive sight, connect with the archetypes of the shaman, and begin to create your shamanic altar of medicine stones (*mesa*) through ceremony – a sacred place of healing and vision that will grow with you over time.

You are guided by Aiyana, a Shamanic Healer and teacher with 20 years of experience in the mysticism and healing traditions of the Andes, and Charlotte, a Shamanic Healer, psychosynthesis therapist, yoga teacher, and breathwork facilitator.

Together with us, and the Luminous Healing spaces, portals open to inner freedom, soul clarity, and spiritual light.

From Personal Healing to the Art of Luminous Healing

The healing arts of the Andes are both beautiful and profoundly powerful. To become a Healer for others requires not only skill, but also the courage to walk your own personal healing journey.

In the final 3 days, you will learn the foundations of **Luminous Healing** – beginning with the Illumination Process. The luminous energy field contains the information of your past, present, and future. This information shapes your physical body and outer reality, magnetically attracting certain people, situations, and experiences into your life.

The Illumination Process works with the imprints in the luminous field that carry heavy or limiting information. It clears the dense emotional energy stored there and erases the underlying structure that keeps the old dynamics alive. Illumination is the foundation of all shamanic healing – freeing you from the past, strengthening the immune system, and restoring the healthy flow of life force through the body.

When we heal emotional wounds and release the recurring patterns they create in relationships, health, and life, we gain access to more vitality and a profound sense of peace. From this place, we can more easily create the life we dream of.

Practical Training

During the healer training, you will:

- Learn **interview techniques** to listen with all your senses – beyond the physical story – to discover what the client is truly seeking healing for.
- Practice how to **complete a healing session** so that the client leaves with a new map, energetic gifts, and soul contracts to integrate the healing and anchor the energy shifts into their life.
- Train in a **small, supportive group**, with personal guidance and feedback from both Aiyana and Charlotte.
